

List of Figures

1.1	PHR is a Reach Scale Activity	4
1.2	Unknown Restoration Response	5
1.3	Example of a DEM of Difference (DoD)	9
1.4	Example elevation change distribution	12
2.1	Quantifiable Continuum of Uncertainty	19
2.2	Uncertainty Typology	21
2.3	Relationship Between Knowledge and Uncertainty	24
2.4	Crisp vs. Fuzzy	28
2.5	A Bayesian Belief Network for Environmental Management	33
2.6	Uncertainty in Habitat Suitability Curves	34
2.7	Monte Carlo Habitat Suitability Model	36
2.8	Degree of Uncertainty in Knowledge Bases	40
2.9	Philosophical Attitudes Toward Uncertainty	42
2.10	Embrace Uncertainty Strategy	45
2.11	Uncertainties Addressed in this Thesis	46
3.1	Catchment-Framed Nested Hierarchy of Scales and Salmonid Functions	50
3.2	Map of Range of Wild Atlantic Salmon	52
3.3	Schematic of Salmon Redd	53
3.4	Conceptual Model of Factors Influencing Spawning Site Selection	54
3.5	The Morphological Method	60
3.6	Contextual Photos of three Study Sites used in this Thesis.	66
4.1	River Feshie Vicinity Map	75
4.2	Detrended DEMs and DoD for 2003 to 2007	77
4.3	Bootstrapping Experiment for Estimating Elevation Uncertainty	83
4.4	Results for Individual Survey Metrics of Bootstrapping Experiment	84
4.5	Photos Depicting Repeat Survey Experiments	86
4.6	Summary Results of Repeat Survey Experiments	87
4.7	Elevation Uncertainty Histograms for Confluence Site	89
4.8	Elevation Uncertainty Histograms for Dry Bar Site	90
4.9	Example of Significance of Elevation $_{min}$ LoD Thresholds	95
4.10	Illustration of Calculation of Probability Using T-Score	96
4.11	Precision vs. Significance	98
4.12	Input and Output Fuzzy Membership Functions	100
4.13	Examples of Total Consequence of FIS Rules (2 Inputs)	102
4.14	Examples of Total Consequence of FIS Rules (three inputs)	103
4.15	Illustration of FIS Construction	106

4.16	FIS Surfaces Compared	107
4.17	Example of Transform Function from Spatial Contiguity Index to Probability	108
4.18	Comparison of 5x5 and 7x7 Neighbourhood Analysis Window	110
4.19	Sensitivity of Updated Probability to Transform Function Parameters	112
4.20	Flow Chart for DoD Analysis 2.0	114
4.21	Pathway 1 Through DoD Analysis 2.0	117
4.22	Comparison of Areal and Volumetric DoD Distributions (2007-2003)	119
4.23	Pathway 2 Through DoD Analysis 2.0	122
4.24	DoDs With 10 cm <i>min</i> LoD Threshold Applied	123
4.25	Application of Pathway 2 on DoD Distributions (2007-2003)	124
4.26	Gross Budget Sensitivity to Simple <i>min</i> LoD Threshold	125
4.27	Pathway 3 Through DoD Analysis 2.0	127
4.28	Pathway 4 Through DoD Analysis 2.0	128
4.29	Comparison of Thresholded DoDs Based on Pathway 3 and Pathway 4	129
4.30	Application of Pathways 3 and 4 on DoD Distributions (2007-2003)	131
4.31	Comparison of a Priori and Posterior Probabilities	132
4.32	Pathway 4 Budget Sensitivity to Confidence Interval Threshold	133
4.33	DoD Sensitivity to Confidence Interval <i>min</i> LoD Threshold	134
4.34	Pathway 5 Through DoD Analysis 2.0	136
4.35	Pathway 6 Through DoD Analysis 2.0	137
4.36	Summary of Total Information Loss by Pathway	139
5.1	Examples of Sub-reach Masks	150
5.2	Geomorphological Analysis Extension to DoD Uncertainty Software	154
6.1	Study Site Context Photographs	161
6.2	Gravel Mining in 1974	162
6.3	Newspaper Clipping of New Year's Eve Storm	164
6.4	Contextual Hyetograph and Hydrographs for New Year's Eve Storm	165
6.5	Stage Hydrograph on Sulphur Creek for New Year's Eve Storm	166
6.6	Aerial Photographs of Sulphur Creek Before and After New Year's Flood	167
6.7	Geomorphic Unit Classification Before and After	169
6.8	Central Bar Development Photograph Sequence	170
6.9	Flood Recession Photograph Sequence	171
6.10	FIS-Derived Elevation Uncertainty for Sulphur Creek	173
6.11	Sulphur Creek DoD	175
6.12	Reach Segregation of DoD	177
6.13	CoD based on 3 Category Classification	180
6.14	CoD as a DoD Mask	183
6.15	CoD Mask Elevation Change Distributions	184
6.16	Components of the Geomorphological Interpretation	185
6.17	Geomorphological Process Mask DoD Segregation	187
6.18	Geomorphological Process Mask Elevation Change Distributions	188
6.19	Central Bar Development ECD	190
6.20	2004 Redd Survey	194
6.21	2004 Redd DoD ECDs	196
7.1	Mokelumne SHR Site Map	202

7.2	Slope Creation Design Concept	203
7.3	Hydrographs for Mokelumne River	205
7.4	Mokelumne DEMs	207
7.5	Thresholded DoDs for Mokelumne	208
7.6	Elevation Change Distributions for DoDs on Mokelumne	209
7.7	TS1 Geomorphological Interpretation Mask and DoD	212
7.8	TS1 Geomorphological Interpretation ECDs	213
7.9	TS1 Geomorphological Interpretation Mask and DoD	214
7.10	TS3 Geomorphological Interpretation ECDs	215
7.11	TS1 Geomorphological Interpretation Mask and DoD	216
7.12	TS5 Geomorphological Interpretation ECDs	218
7.13	TS5 Gravel Placed by Site	219
7.14	TS7 Geomorphological Interpretation Mask and DoD	220
7.15	TS7 Geomorphological Interpretation ECDs	221
7.16	TS5 Gravel Placed by Site	222
7.17	Comparison of Placed Gravel ECDs	224
7.18	SHR Induced Hydraulics	225
7.19	TS1 Morphological Unit Mask and DoD	226
7.20	TS1 SHR ECDs	228
7.21	TS3 Morphological Unit Mask and DoD	229
7.22	TS3 SHR ECDs	230
7.23	TS5 Morphological Unit Mask and DoD	231
7.24	TS1 SHR ECDs	232
7.25	TS7 Morphological Unit Mask and DoD	233
7.26	TS7 SHR ECDs	234
7.27	TS3 GHSI Mask ECDs	235
7.28	TS5 GHSI Mask ECDs	237
7.29	TS3 GHSI Mask ECDs	238
7.30	TS2 Masks and DoD	240
7.31	TS2 Geomorphological Interpretation ECDs	241
7.32	TS2 SHR ECDs	243
7.33	TS6 Masks and DoD	244
7.34	TS6 Geomorphological Interpretation ECDs	246
7.35	TS6 SHR ECDs	247
7.36	TS6 Derivation of GHSI CoD	249
7.37	TS6 GHSI CoD ECDs	250
7.38	ECDs from Redd Masks	253
8.1	Photographs of Glen Feshie	257
8.2	Hydrograph for Feshie Bridge during Study Period	260
8.3	Detrended DEMs	261
8.4	Feshie Geomorphological Interpretation of DoDs	266
8.5	Feshie Geomorphological Interpretation of 2003 to 2004 DoDs	268
8.6	Elevation Change Distributions of Geomorphological Interpretation of 2003 to 2004 DoDs	269
8.7	Feshie Geomorphological Interpretation of 2004 to 2005 DoDs	272
8.8	Elevation Change Distributions of Geomorphological Interpretation of 2004 to 2005 DoDs	273

8.9	Feshie Geomorphological Interpretation of 2005 to 2006 DoDs	276
8.10	Elevation Change Distributions of Geomorphological Interpretation of the 2005 to 2006 DoDs	277
8.11	Feshie Geomorphological Interpretation of 2006 to 2007 DoDs	280
8.12	Elevation Change Distributions of Geomorphological Interpretation of 2006 to 2007 DoDs	281
8.13	Low-stage Channel Network	284
9.1	The Parker Far Side Flooding Analogy	296
9.2	Comparison of TLS and GPS DoD	305
A.1	River Feshie Location Map	309
A.2	River Feshie Vicinity Map	311
B.1	Comparison of Aerial Photographs	315
B.2	Aerial Photo-Based Vegetation Classification	316
B.3	Locational Probability Analysis of Vegetation	318
B.4	Aerial Photograph from 1946	320
B.5	Aerial Photograph from 1955	321
B.6	Aerial Photograph from 1964	322
B.7	Aerial Photograph from 1989	323
B.8	Aerial Photograph from 1993	324
B.9	Aerial Photograph from 1997	325
B.10	Aerial Photograph from 2000	326
B.11	Aerial Photograph from April, 2005	327
B.12	Aerial Photograph from August, 2005	328
B.13	Aerial Photograph from August, 2007	329
C.1	GPS Base Station	331
C.2	Survey Point Density	332
C.3	DEM from 2000	334
C.4	DEM from 2002	335
C.5	DEM from 2003	336
C.6	DEM from 2004	337
C.7	DEM from 2005	338
C.8	DEM from 2006	339
C.9	DEM from 2007	340
C.10	Detrended DEM from 2000	341
C.11	Detrended DEM from 2002	342
C.12	Detrended DEM from 2003	343
C.13	Detrended DEM from 2004	344
C.14	Detrended DEM from 2005	345
C.15	Detrended DEM from 2006	346
C.16	Detrended DEM from 2007	347
C.17	Slope Analyses	349
D.1	Illustration of Horizontal and Vertical Errors due to Tilted Detail Pole	351
E.1	Roughness Surfaces Based on Moving Window Elevation Range	358

F.1	Location Map for Sulphur Creek Study Site	360
F.2	Active Channel Width Through Time	361
F.3	Aerial Photograph of Sulphur Creek: 1942	362
F.4	Aerial Photograph of Sulphur Creek: 1953	363
F.5	Aerial Photograph of Sulphur Creek: 1958	364
F.6	Aerial Photograph of Sulphur Creek: 1965	365
F.7	Aerial Photograph of Sulphur Creek: 1982	366
F.8	Aerial Photograph of Sulphur Creek: 1993	367
F.9	Aerial Photograph of Sulphur Creek: 2002	368
G.1	Location Map for Mokelumne River Study Site	373
G.2	TS1 DoD Analysis	381
G.3	TS2 DoD Analysis	383
G.4	TS3 DoD Analysis	385
G.5	TS5 DoD Analysis	388
G.6	TS6 DoD Analysis	390
G.7	TS7 DoD Analysis	392

List of Tables

2.1	Synonyms of Uncertainty	16
2.2	Probabilistic Uncertainty	18
2.3	Simple Typology of Uncertainty	20
2.4	Influence of Uncertainties on Modeling	30
2.5	Fuzzy in the Literature	37
2.6	Schumm's 10 Ways to be Wrong	41
3.1	Physical Summary Comparison of Study Sites	68
3.2	Salmonid and Habitat Summary Comparison of Study Sites	69
4.1	The 'Benchmark' Repeat Topographic Survey Data Sets	76
4.2	Variance in Repeat GPS Observation of Control Points	80
4.3	Statistics from Bootstrap Experiments for Estimating Elevation Uncertainty	82
4.4	Bootstrap Experiment Statistics Segregated by Slope	82
4.5	Magnitude and Point Density of Repeat Surveys at Confluence Site	88
4.6	Two Input Fuzzy Inference System for Elevation Uncertainty	101
4.7	Three Input Fuzzy Inference System for Elevation Uncertainty	104
4.8	Contrasting Pathways Through DoD Uncertainty Analysis	115
4.9	Gross DoD Budget Values	116
4.10	Percentages of the DoD Elevation Change Distributions Beneath Various Thresholds	120
4.11	DoD Results and Information Loss	138
6.1	Gross DoD Results	174
6.2	Three Class CoD Budget Results	181
6.3	<i>Hypothetical</i> Embryo Impact Analysis	195
7.1	Mokelumne Analysis Periods	204
7.2	As-Built Masks Types Used	210
7.3	Design versus Calculated SHR Fill Volumes	223
7.4	Consumption of Gravel by Morphological Units	233
7.5	Consumption of Gravel by Spawning Habitat Quality	237
7.6	Monitoring Masks Types Used	239
7.7	TS6 Geomorphological Interpretation Budget Segregation	248
7.8	TS6 GHSI Classification of Difference Summary	251
8.1	Feshie Flow Statistics During Study Period	262
8.2	Gross DoD Budgets for Segregation	263
8.3	Summary of Total Areal & Volumetric Percentages by Category of Change	285
8.4	Comparison of Geomorphological Interpretation Techniques	289
